

Child Protection Accountability Commission

Education Collaboration Workgroup Minutes

Sept. 7, 2016

2:30 pm-3:30 pm

DSCYF Faulkland Rd Room 201

Attendees: Megan Pell, Na-Tasha Richardson, Eliza Hirst, Judge Barbara Crowell

Eliza explained the partnership between OCA/DSCYF/Nemours project. Nemours link provides a portal to school nurses for children with complex medical needs. This partnership is looking to streamline information sharing and communication between various agencies on youth in foster care. The group also wants to share education information with Nemours for the foster care clinic. Eliza will share the education snapshot with this group. The group would be meeting on Sept. 8th to outline a process for information sharing. Eliza will update the group at the next meeting.

Georgetown University Program: Eliza explained that an 8 person team will be heading to Georgetown to focus on school-justice partnerships. We will work on building up trauma responsive programs, collaborative problem solving, and restorative practices.

Building Community Resiliency: Na-Tasha Williams explained the BCR includes a cohort of 5 children's hospitals and how the health system can address trauma in the community. The group review ACES and takes a three pronged approach: (1) prevention (community campaigns educate on ACES and destigmatize asking for help), (2) universal ACES screening for all primary care practices → that information gets loaded into EPIC so it is part of the child's medical record and the child will not need to be rescreened, develop comprehensive referral process and understand what services are available, and (3) community outreach and education. Next BCR meeting is Sept. 20th. Eliza will send Na-Tasha Megan and Judge Crowell's contact information so that she can be included.

Eliza will also send compassionate schools link to everyone.

Next meeting 11/16/16
